PROFILE

Hey, I'm Amir!
I'm turning 19 soon, with 4 years of experience as a Full-Stack Developer in the JavaScript ecosystem. I've never wanted to be just a coding machine. That's why I focus on software engineering and product thinking—building solid, architecture-first systems that truly drive the product forward. Having always had a keen interest in marketing, my time at RubiKamp helped me dive deeper. I'm currently pursuing it to blend a sharp business mindset right into my technical world.

Skills

- Frontend Stack:**
- React.js | Next.js
 - JavaScript | TypeScript
 - Tailwind CSS | Shadcn UI | MagicUI | Framer Motion
- State Management & Data Fetching:**
- Zustand | TanStack Query (React Query)
 - Zod | Valibot (Schema Validation)
- Backend & Databases:**
- NestJS, Prisma, TypeORM
 - PostgreSQL, MySQL, MongoDB
 - WebSockets
- Tools & DevOps:**
- Git & GitHub | Docker
 - Linux (Ubuntu)
- Soft Skills:**
- Teamwork | Rapid Learning
 - Problem Solving
- Architecture**
- Feature-Based Structure
 - Clean Architecture
 - Scalable Folder Design

Professional Experience

- Rubitech** 
Technical Lead
2026 – Present
A social-impact tech platform, born out of RubiKamp, engineered to bridge the digital divide by sourcing and providing laptops to underprivileged rural students.
- Karnakon** 
Technical Lead
2026 – Present
The official mobile application born out of Karnakon, serving as a comprehensive digital ecosystem for career development. It features dedicated modules for audio podcasts, video content, courses, interactive community spaces, and career roadmaps.
- DoNoghteh**
Technical Lead & UI/UX Designer
2025 – Present
The official application for DoNoghteh, serving as a unique digital media platform with a highly distinct, out-of-the-box UI/UX design tailored for immersive audio podcast streaming and modern brand storytelling.

Education
